An Astonishing But True Story

"My home is in Sidney. Ohio. I have been nearer death with consumption than any other living person in the world, and I want you to read this, so you can (ell others. I took a severe cold and neglected it, I grew worse all the time, and at the end of

two years I had run into consumption. I coughed terribly, lost flesh, could not sleep, and became so dreadfully weak that I had to take to bed. In the following eighteen months I gradually reached the last stages of consumption. No less than seven physicians treated me and all gave me up saying I was in-curable. I was absolutely helpless. The whole family wore themselves out caring for me. One day

mother and sister came to my bedside, and said I had but a day or two more to live. Tears rolled down their cheeks as they sobbed the news. The doctors had declared I was in the last stage, and no human being could save me. I was willing to die, but before going to the cruel grave, I wanted to go out and see my dearly beloved town of Sidney once more. grave, I wanted to go out and see my dearly beloved town of Sidney once more. They told me such a thing was impossible—that I would surely die before I got back. But I insisted, and to gratify my dying wish, a carriage was fitted up with a bed of pillows, and to this I was carried and slowly driven around Court House Square. I got home more dead than alive. Through the mercy of Providence, someone brought a trial bottle of medicine said to be a consumption cure. No one imagined for an instant it was worth trying. But as a drowning person grasps at a straw, so I tried this medicine. I was better after taking two doses. Mother got more of the medicine and I took it, improving all the time. Today I am as well as any reader of this paper, and the medicine that cured me was Acker's English Remedy for Consumption. I declare before God and man that every word here printed is true." every word here printed is true.
